KOYUNCU DÖKÜM

2002 yılında Rifat KOYUNCU olarak kupolu ocakta döküm sektöründe hizmet vermeye başlamıştır. 2006 yılında 1000 metre kare yeni yerine taşınarak indüksiyon ocak olarak hizmet vermeye devam etmiştir. 2010 yılında CNC atölyesi kurarak burçlu ve kör kasnak olarak devam etmiştir.

2021 yılında 2250 metre kare yeni yerine geçerek 1500 kg lık yeni dökümhanesiyle birlikte Burçlu Kasnak, Kör Kasnak ve SN SNI yatak üretimine devam etmektedir.

Amacımız müşterilerimize ihtiyaçları doğrultusunda, tam zamanında yüksek kaliteli döküm parçaları tedarik etmek ve sınırsız müşteri memnuniyetidir.

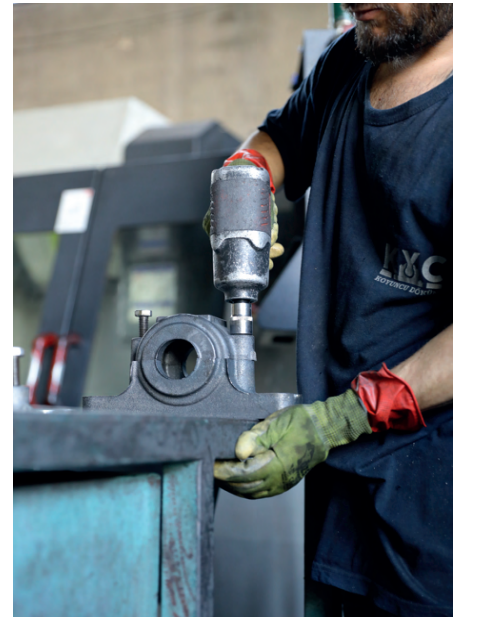

Ar-Ge'den tasarıma, model ve dökümden, talaşlı imalata uzanan süreci tek elden çıkararak ürünün kalite takibini bir fil yapmaktayız. Tüm bu hizmetleri sağlayan ekibimizin refahı ve güvenliği için gerekli eğitimler ve sosyal işlere öncelik tanınmakta ve sistemin doğal akışı içerisinde iş birliği sağlanmaktadır.

In 2002, as Rifat KOYUNCU, he started to serve in the casting sector in the cupola quarry. In 2006, it moved to its new place of 1000 square meters and continued to serve as an induction cooker. In 2010, it continued as a bush and blind pulley by establishing a CNC workshop.

In 2021, SN SNI continues to produce bearings and blind pulleys, with a new foundry of 1500 kg, having moved to its new location of 2250 square meters.

Our aim is to supply our customers with high quality casting parts just in time in line with their needs and to provide unlimited customer satisfaction.

We make the quality follow-up of the product a verb by excluding the process from R&D to design, from model and casting to machining. For the welfare and safety of our team, which provides all these services, priority is given to the necessary trainings and social work, and cooperation is ensured in the natural flow of the system.
